Question	Topic	Show / Tell	Question	Answer
E9	Suspension	Tell	Tell me how you would check the condition of the suspension on this vehicle.	As part of a daily walk-round check, suspension should be checked for any obvious signs of deterioration or damage.
E10	Instruments	Show	Show me what instrument checks you would make before and after starting the engine on this vehicle.	Check to make sure all gauges and warning systems are working. Ensure that all gauges are reading correctly and that warning lights / audible warning devices are extinguished before moving away.
E11	Loading	Tell	Tell me the main safety factors involved in loading this vehicle.	The load should be evenly distributed throughout the length of the vehicle so as not to affect control while the vehicle is being driven. Any load must be carried so that it does not endanger other road users. It must be securely stowed within the size and weight limits for the vehicle. The load needs to be secure so that it cannot move or fall from the vehicle when cornering or braking.
E12	Air	Show	Show me how you would check for air leaks on this vehicle.	Charge the air tanks, consult gauges for drops in air pressure. Walk round vehicle listening for any obvious leaks.
E13	Windscreen Washers	Show	Show me how you would clean the windscreen using the windscreen washer and wipers	Operate control to wash and wipe windscreen (turn ignition on if necessary).
